EDUCATION

Maulana Azad National Institute Of Technology Bhopal

Aug 2023 – Expected April 2027

Bachelor of Technology (B Tech)

Bhopal, Madhya Pradesh

- CGPA: 7.9/10.0
- Coursework: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

IBM Skillsbuild

June 2025 – July 2025

Artificial Intelligence Intern

- Developed machine learning models for salary prediction using Linear Regression and Decision Trees.
- Improved prediction accuracy through data preprocessing and feature engineering.
- Evaluated model performance using R^2 , MAE, and RMSE metrics.

Google Summer Of Code(GSoC)

Sept 2024 – Nov 2024

Open Source Contributor

- Optimized C++ computation modules, reducing memory usage by 25%.
- Collaborated with maintainers to review code, fix issues, and contribute accepted pull requests to the project.
- Applied Git, debugging, and performance optimization techniques to improve software scalability and code efficiency.

PROJECTS

KrishiMitra AI | *React.js, Node.js, Express.js, MongoDB, Firebase, CNN, IoT (ESP32)* | GitHub

- Engineered an IoT smart farming platform with ESP32 sensors and Node.js backend enabling real-time environmental monitoring at 5-second intervals.
- Developed CNN-based plant disease detection achieving 98% accuracy with scalable Firebase-authenticated REST APIs supporting 6 regional languages.
- Recognized as Finalist at Hacksagon Hackathon (IIIT Gwalior) for delivering a production-ready AgriTech solution combining AI/ML and IoT automation.

AI Powered Smart Parking System | *Python, Flask, YOLO, OpenCV, JavaScript, Chart.js* | GitHub

- Built a real-time vehicle detection system using YOLO and OpenCV on live CCTV footage, achieving 90% accuracy.
- Designed low-latency Flask REST APIs optimizing the YOLO inference pipeline, reducing response time by 30% with live dashboard auto-updates.
- Selected for Final Round at Hack4Delhi Hackathon; built government-ready admin dashboard with session-based auth and Chart.js live analytics.

EchoCare | *React.js, Node.js, Express.js, MongoDB, OpenAI API, Web Speech API, Firebase* | GitHub

- Architected a full-stack AI healthcare platform with OpenAI chatbot, voice assistant, and Google Maps hospital discovery supporting 100+ concurrent users.
- Engineered secure REST APIs with JWT auth and role-based access control using Express.js and MongoDB, reducing backend latency by 30%.
- Built real-time appointment booking and smart analytics dashboard in React.js, enabling live patient monitoring and doctor management workflows.

TECHNICAL SKILLS

Programming Languages: Java, C++, Python, JavaScript

Frameworks & Libraries: React.js, Node.js, Express.js, Flask, Scikit-learn, Pandas, NumPy, Matplotlib

Web Technologies: HTML5, CSS3, Tailwind CSS, REST APIs

Databases: MongoDB, MySQL, PostgreSQL, Firebase

Tools: Git, GitHub, Postman, VS Code

Core Concepts: DSA, OOP, SDLC, Debugging, System Design Basics

HONORS AND ACHIEVEMENTS

- Rank 82/3000 (Top 2.7%) in NextWave Launchpad DSA Contest among IIT/NIT/IIIT participants.
- Achieved **Top 15,000** global rank in Google Big Code Challenge Qualifier Round among 1 Lakh+ participants.
- **Finalist** at Hack4Delhi and Hacksagon; Semi-Finalist at EY Techathon 2025.
- CodeChef 3 Star Coder (Max Rating: 1600+); achieved Global Rank 950/30,000+ in CodeChef Starters 176.
- Solved 500+ problems on LeetCode (Max Contest Rating 1700+) and 100+ problems on GeeksforGeeks.
- Selected Fellow, Harvard Aspire Institute, a globally competitive leadership program.
- Ranked in Top 6.7% nationwide in Naukri Campus National Aptitude Test (NCAT) 2025.
